

Skipper Transport Parts is a market-leading distributor of industrial maintenance, repair, operating 'MRO' supplies and solutions to customer markets of automotive, truck & trailer, mining, bus, agriculture and industrial in Western Australia and Queensland.

Skipper Transport Parts is a parts provider specialising in parts supply and consignment store management. It offers a comprehensive portfolio of brands to help customers evaluate their parts requirements to reduce the total cost of ownership of their equipment, with its branches positioned to provide the best possible support to major logistics fleets, small logistics fleets and independent operators, and automotive fleets. This includes the provision of tailored onsite consignment store solutions to some of the above fleets and operators.
